Z125 FEATURES

Powerful Engine

125 cm3 4-stroke Single Smooth power delivery contributes to the Z125's 125 cm3 engine's feel-good performance. Like a typical Kawasaki engine, the engine delivers a good "punch" at high rpm, and continues to pull right up to the rev limiter. Reliability inherited from its robust 250cc base engine adds peace of mind. Six-speed transmission Smooth-shifting six-speed transmission complements the sporty street performance, offering a gear for every situation. Electric start & fuel injection Electric starter and fuel injection ensure hassle-free starting at the push of a button.

Sporty Suspension

ø37 mm telescopic fork contributes to both light, nimble handling as well as a generally composed riding character. Kawasaki's original linkage-equipped Uni Trak rear suspension delivers a smooth ride over a wide range of road conditions.

Z Supernaked Styling

Like its larger brothers in the Z Series, the Z125's aggressive styling hints at its sporty potential. A dynamic design created by its slim, hourglass figure is complemented by extremely lightweight looks care of sharp, close-fit bodywork and an original trellis frame.

Full-size Chassis

The Z125 features a full-size chassis. With a slim, compact trellis frame, sporty suspension and lightweight 17” wheels, the light, nimble handling they offer is ideal for new riders to become familiar with operating a full-size motorcycle. Slim, compact trellis frame Trellis frame enables a slim, compact package that is easy to manage, and makes it easy to reach the ground with your feet.

Transmission

Smooth-shifting six-speed transmission complements the sporty street performance, offering a gear for every situation. The clutch engages smoothly and disengages cleanly, making it easy to operate for new riders and optimising clutch feel for on-road performance.

All-digital Instrumentation

All-digital instrument panel gives the cockpit a modern, sporty look.

Brakes/wheels/tyres

Front and rear disc brakes offer impressive stopping performance. Dualpiston calipers grip a ø290 mm disc up front, and a ø220 mm disc at the rear. Petal disc design adds to the sporty Kawasaki looks.

ERGO-FIT Low Seat

ERGO-FIT seats enable riders to select seats that optimise their fit on the bike. For the Z125, an ERGO-FIT low seat (-25 mm) is available. (Patterns on the seat material are unique to each machine.)

Sharp Taillight Design

Sharp taillight design enhances the sporty look of the rear.
