SRV 125 FEATURES

2 CYLINDER V-Twin ENGINE

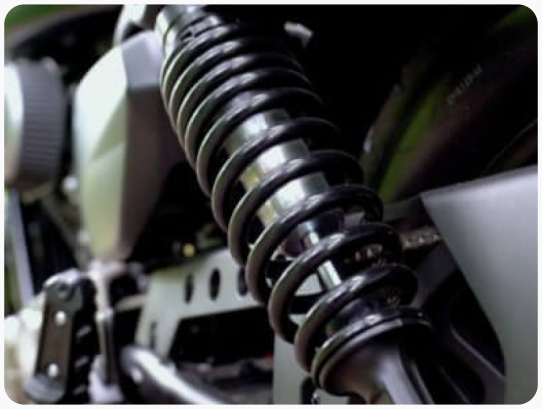
The QJMotor SRV 125 model is equipped with a unique liquid-cooled 8 valve SOHC V-Twin engine. It's torquey and smooth producing a maximum power output of 14Bhp at 10,000rpm and has electronic fuel injection to meet Euro 5+ emissions. This engine looks like a much larger capacity than only 125cc, largely because the fuel injection system and air filter are placed in-between the cylinders like in classic larger capacity American V-Twin motorcycles

LED LIGHTING

The SRV 125 has full LED lighting for the headlight, indicators and tail light to give optimum visibility day or night from these stylish, sleek looking lights

SCULPTED LOW SEAT

The QJMotor SRV 125 has a low seat height of just 700 mm making it easy to manoeuvre at low speed and on the spot. The SRV 125 has forward footrests, gear shift and brake levers which are also adjustable



ADJUSTABLE REAR SUSPENSION

The QJMotor SRV 125 is fitted with adjustable rear shock absorbers which are equipped with coil springs and adjustable preload. These classic looking shock absorbers not only give the SRV 125 a cool, cruiser look but also help maintain a high level of ride comfort

USD FRONT SUSPENSION

The QJMotor SRV 125 has upside-down forks with 125 mm of travel giving the rider both comfort and good handling

BELT DRIVE

The QJMotor SRV 125 features a belt final drive for ease of maintenance and quieter running

CIRCULAR DASH / BACK LIT SWITCHGEAR

The Easy to Read full colour LCD 4" circular dashboard offers speed, engine revs, fuel gauge, engine temp, gear indicator, trip A / trip B and odometer. The QJMotor SRV 125 also has USB A and USB C charging ports fitted as standard. Back-lit switchgear makes finding the right switches and buttons easier in all conditions, day or night.

DUAL CHANNEL ABS

The advanced braking system with ABS on the front and rear wheels ensures precise and powerful braking, offering high levels of safety. The specially designed wavy brake discs reduce un-sprung weight and improve heat dissipation, enhancing their performance.
