V100 MANDELLO S 1000 FEATURES

The evolution never stops

The Öhlins Smart EC2.0 semi-active suspension is connected to the Riding Modes, meaning you can instantly adjust the V100 Mandello S's character. Depending on the riding style, speed, acceleration and other parameters, the suspension automatically regulates itself to optimise performance, whether on long trips or challenging curves.

Sit astride the future

The S version is designed to deliver a more comfortable and sporting ride and to simplify life, including negotiating city traffic and getting about in the coldest months, which is why heated handgrips come as standard issue. Also part of the package is QuickShifter, allowing riders to change gear without using the clutch, making for a more fluid and dynamic experience.

Connected with you

The V100 Mandello S also includes the Moto Guzzi MIA connectivity system as standard. Using Bluetooth technology, your smartphone connects to the bike's electronics, giving you access to trip statistics and letting you manage calls, messages and playlists without lifting your hands from the handlebar.
